

If you see the at my bedside, please ensure my mouth care has been managed and recorded twice daily.

If you see at my bedside, this means I need help with my mouth care at least twice a day. So people are aware, please clearly record what help I received.

Please 'Lift my Lip', to assess my oral health status. Make a record of what you see, and manage as directed by the mouth care assessment tool.

'Put The Mouth Back Into The Body'- my oral health can have a significant impact on my general health.

Elephants never forget - so please be like the and don't forget to take responsibility for my oral health.
